SmartAccess ►►►► entry HD

The world-leading integrated booking & entry system for courts, pitches, tracks and stadiums
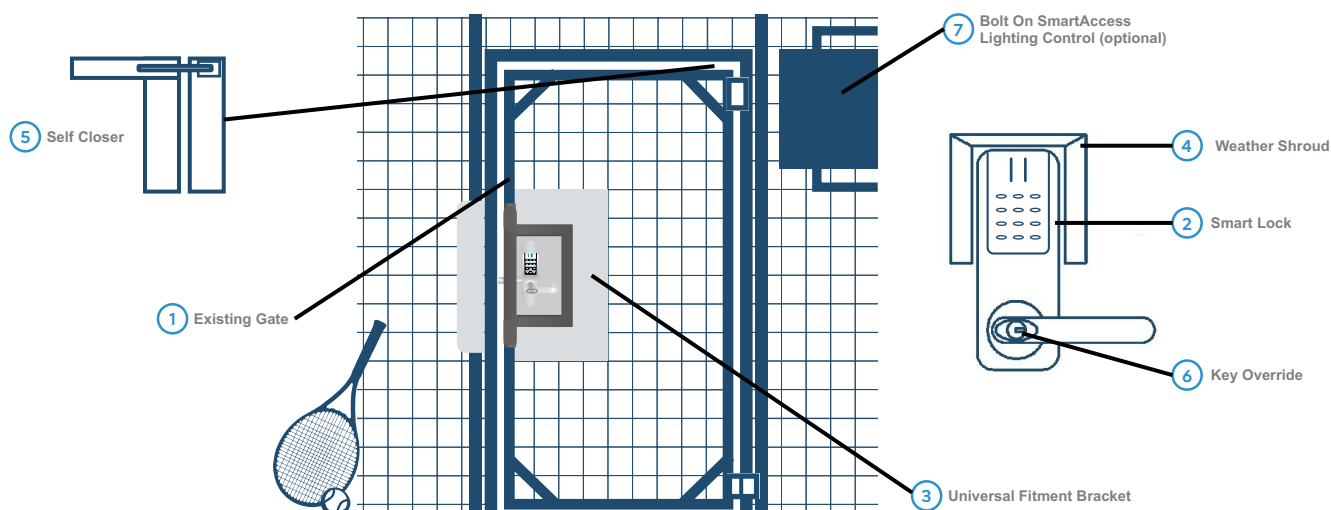

USTA

SmartAccess Entry HD allows players to simply book and pay online, receiving a unique PIN that enables access and, where required, automatically turns the facility's lighting on and off for the duration of the booking.

- **7** Bolt On SmartAccess Lighting Control (optional)
- **5** Self Closer
- **4** Weather Shroud
- **2** Smart Lock
- **1** Existing Gate
- **6** Key Override
- **3** Universal Fitment Bracket

1 INSTALLATION
With a short 30 minute familiarization tutorial from one of our expert support team, the SmartAccess Entry HD package has been designed to be installed by a competent gate and fencing specialist.

2 GAINING ENTRY
Entry is gained via digital keypad situated outside of the court/pitch. Once the access code is entered, the lock releases and you are able to open the gate.

3 EXITING THE COURT
Turn the handle located on the gate - no pins or cards are needed to exit a gate.

4 WEATHER SHROUD
Fitted with a protective shroud, the keypad and lockset are shielded from the elements.

5 SELF CLOSER
An automatic closer is fitted as part of every installation, ensuring security at the gate is maintained.

6 KEY OVERRIDE
In case of an emergency, there is a key override built into the lock on the outside of the gate. Just insert the key and turn to allow access.

7 LIGHTING CONTROL BOLT-ON (optional)
Utilizing existing technology, our SmartAccess Lighting solution can integrate with your existing lighting system to offer automated lighting with any court booking.

Real-time Reporting Multi-venue Increased Revenue Resource Control Easy Access Safe & Secure
