

Founded in 1962, the Brebeuf Jesuit Preparatory School is located in northwest Indianapolis and is part of the Jesuit network consisting of 61 high schools and 28 colleges and universities across the country.

The school has a strong focus on athletics, which includes their boys varsity tennis team, who recently won the state championship. To take their facilities to the next level, the school's ten tennis courts were installed with three SmartAccess Entry HD systems.

“ It was great to be part of the Brebeuf Jesuit Preparatory School tennis court SmartAccess implementation programme. The SmartAccess system brings a whole host of player and facility tools to effectively manage the tennis courts and open them up to the local community. ”
